UYI OBAZEE

UGBOWO, Edo state, Nigeria | +2347057816536 | utejoe.ju@gmail.com | https://www.linkedin.com/in/uyi-obazee

- Highly motivated and dedicated Software Engineer
- Demonstrated exceptional dedication, investing an average of 70 hours per week from August 2022 to October 2023, during my intensive software engineering program.
- Proficient in both front-end and back-end development using MERN stack.
- Demonstrated expertise through the creation of diverse projects, including a social media app.
- Actively contributes to open-source community.
- Maintains a personal portfolio website showcasing skills and passion for innovation.

PROJECTS

- Personal Portfolio: https://uyiobazeeportfolio.netlify.app/
- Social Media App: https://judysphere.netlify.app; pitch video: https://youtu.be/xnq2lnHl654
- All other projects are found in my portfolio website: https://uyiobazeeportfolio.netlify.app/

TECHNICAL SKILLS

- Website Creation: Proficient in developing and designing dynamic and responsive .
- Solid understanding of software development methodologies, including DevOps.
- Mobile app development: react.native
- Front-End: HTML, CSS, React.js, JavaScript, Python
- Full Stack: Node.js
- Front-End Frameworks: React.js
- Version Control: Git, GitHub
- php, wordpress, Back-End Frameworks: Express.js, Python
- Database: MongoDB, MySQL

EXPERIENCE

1. BEMA Integrated service
Full-Stack Software Engineer | BEMA Integrated Service *(remote)*   *November 2023 to present*

- Did the Backend and part of the frontend development of a music website using PHP, WordPress, JavaScript, Python, HTML, and CSS.

- Integrated Wavesurfer library for interactive audio visualization in the website's footer.

- Established seamless connections to Easy Digital Downloads for efficient music transactions.

- Integrated MailerLite API to facilitate seamless newsletter communication with users, enhancing the efficiency of email marketing processes

- Onsite presence, actively engaged in ongoing development and maintenance for optimal functionality and user satisfaction.

2. J. P. Morgan's Software Engineering Simulation | Forage
Associate Software Engineer (remote)   September 2023 to October 2023

Successfully completed J.P. Morgan's Software Engineering simulation through Forage platform.

Demonstrated proficiency in the following key tasks:

i. Set up a local development environment by downloading and configuring necessary files, tools, and dependencies.

ii. Expertly addressed and rectified broken files within the repository, ensuring the web application output functioned correctly.

iii. Utilized JP Morgan Chase's open-source library, Perspective, to develop a live graph that effectively displayed a data feed in a clear and visually appealing manner for traders to monitor.

3. ALX AFRICA
Software Engineer (Intern)   August 2022 to September 2023

- Completed an intensive software engineering program focused on practical, hands-on projects, dedicating an average of 70 hours per week to coursework.
- Engaged in a rigorous curriculum covering advanced topics in software development, including data structures, algorithms, and design patterns.
- Collaborated with a diverse team of fellow students on complex projects, simulating real-world development environments.
- Developed and deployed multiple full-stack web applications, showcasing proficiency in technologies such as

JavaScript, Python, HTML/CSS, and SQL.
- Actively participated in code reviews and provided constructive feedback to peers, fostering a culture of collaboration and continuous improvement.

EDUCATION

- Certificate in Software Engineering ALX Africa, 09/2023.
  https://drive.google.com/file/d/1eqX9mGAxRo8Dp1ZJdKgJWXJBip--0y9D/view?usp=sharing
- Bachelor of Engineering (B. Eng) Civil Engineering in the University of Benin (UNIBEN), Edo State Nigeria 09/2022

ACHIEVEMENTS

- I completed J.P. Morgan's Software Engineering on Forage.
- Passed and got the linkedin Front-End Development skill Assessment badge, and was among the top 15%.
- Passed Turing quizzes and challenges.
